## METAL KAYAK HANGER

### ASSEMBLY/USE INSTRUCTIONS

www.surftosummit.com - phone: 805.964.1896 - fax: 805.964.6276 - toll free: 800.930.8782

1. If mounting the wall hanger on drywall, locate the framing studs and use these as your mounting points. Hollow walls will not support the weight of your kayak. The included anchor inserts are for masonry installations only.

2. The spacing of the wall hanger arms is important. Spacing should be determined by the length of the kayak and the locations of your framing studs. Framing studs are generally 16-24" apart on center. Make sure that you are mounting each arm in the exact center of a stud.

3. Once you have found the correct position for each arm, you may want to use a level to ensure the arms are perpendicular to the ground. Place the mounting brackets over the arms and mark the screw hole positions with a pencil. You should have one bracket near the top of each

arm and one bracket just below the main hook of each arm.

4. Using a power drill, make a pilot hole for each of the eight screws. Make sure that you are drilling into a stud and that your drill bit is slightly smaller than the screws you are using. If you miss a stud, you will need to move your hanger arm to the left or right to compensate.

5. Change to a Phillips bit and insert a screw into each hole. Make sure the screws are snug but not overly tight.

6. Hang your kayak in the upper cradles and your paddle in the lower hooks.

**One Year Limited Warranty:** Surf to Summit Inc. guarantees this product and its components for one year. Should this product fail under normal use conditions within its warranty period, Surf To Summit Inc. will repair or replace this product at their discretion. Please contact Surf To Summit Inc. at 866.416.2827, Mon-Fri, 9AM-5PM PST for a return authorization.

**Safety Guidelines:** This hanger system is intended for the storage of sports equipment only. Surf To Summit Inc. disclaims liability for any damage to persons or property resulting from misuse of this product and its components.
